

**2<sup>nd</sup> Annual Yosemite Peace Symposium**  
**“A Gathering of Peacemakers”**  
**[www.YosemitePeace.com](http://www.YosemitePeace.com)**

The 2nd Annual Yosemite Peace Symposium will be held **March 20 – 21, 2020 at The Pines Resort at Bass Lake**, located near Yosemite National Park.

The Symposium will bring experts in the three tracks together with those who are peacemakers in their communities, giving the participants ***tangible tools to bring home and implement a plan for building peace in their own communities.***

The Symposium sessions are offered in tracks with the following areas of focus:

**Peace and the Environment** – Destruction to the environment can be both a cause and effect of war. Food insecurity is prevalent in the U.S. and around the world, while food waste is filling up landfills contributing to greenhouse gases. The connection between peace and the environment is becoming more and more obvious.

**Peace and Our Youth** – Conflict resolution, anti-bullying education, social emotional learning and mindfulness in schools are just a few ways to support the next generation of peacemakers.

**Peace and Human Dignity** – A peaceful world celebrates diversity. We all deserve to live a life of dignity regardless of race, age, religion, country of origin, physical challenges or housing status.

**Peace and The Arts** – Art in its many forms can be a power catalyst for improving the world and inspiring positive change. Whether through the performing arts, music, visual arts, spoken word/storytelling or poetry/written word, we’ve all experienced the healing effects of the arts.
